Gynecology & Obstetrical Surgery Instruments Catalogue

EDITION 2019

Web: [www.precisionurgicalworks.com](http://www.precisionurgicalworks.com) E-mail: [sales@precisionurgicalworks.com](mailto:sales@precisionurgicalworks.com)

- **Introduction to the Catalogue**

Thank you for your interest in Precision gynecology and obstetrical instruments. We remain committed to providing the highest quality products and customer service.

In this special catalogue you will find a comprehensive range of gynaecology and obstetrical instruments, which have been developed following detailed consultation with leading gynecologists and obstetricians. These instruments in conjunction with Precision General Instruments provides complete solution for gynecological and obstetrical surgeries.

We appreciate your patronage and look forward to a successful relationship with you.

- **About Precision Instruments**

Precision Instruments is a privately owned medical technology company dedicated to innovation and excellence in the crafting of dental & surgical instruments. Based on customer demand over time our roots extended beyond a specialist in reconstructive surgery instruments and gradually expanded to one of the most comprehensive instrument range available in the industry today.

- **Why is Precision Focused on Instruments Quality?**

Surgeons are highly talented and skilled individuals. They operate under significant time constraints and are required to make quick decisions while performing complex dental & surgical surgeries. At Densty we understand that in such a scenario the dental & surgical professional requires tools that are not just fit for the purpose but are reliable, dependable and crafted by a company that has track record for relentless pursuit for excellence in the manufacturing of dental & surgical instruments.

- **Precision Quality Standards**

In European Union medical devices are subject to a series of uniform laws and the EC directive places rigid demands on surgical instruments. Precision Instruments is proud to claim that we have always surpassed the legal requirements to ensure that each instrument reaching the surgeons hand is indeed a testament to surgical craftsmanship.

We are BS EN ISO 13485:2012/ISO 9001:2008 certified and CE approved to ensure compliance with the standard defined in line with medical devices directive 93/42/EEC.

- **Life Time Warranty**

We encourage our customers to calculate lifetime costs prior to making purchase decisions and investing in surgical instruments.

Precision Instruments are guaranteed for life\* against manufacturing defects of material and workmanship. This means we will repair or replace free of charge any surgical instrument that does not meet its functional requirements when used for its intended purpose and maintained properly.

## ■ MEASUREMENTS, STANDARDS, AND CONVERSIONS

### Millimeter Equivalents

MM = INCHES	MM = INCHES	MM = INCHES
.1 = .00384	29.0 = 1.14173	65.0 = 2.55905
